**INVITATION for 2nd LNG Instructor Training Course**  
**(6 weeks of LNG Refresher Course)**

Dear Colleagues

As you may know the ALETC (Asia LNG Education & Training Center) is completing successfully the World's first LNG Trainer Training Course by May 15, 2007.

The Course focused on the LNG Refresher training, consisting of 1 week of Basic training, 1 weeks of field trip and 6 weeks of on-board training.

Two trainees from Marine Engineering Faculty of USMMA and Shanghai Maritime University has attended on the Course, and they are on the way back to Korea from Qatar (On-board training - LNGC Hanjin Raslaffan – Membrane type).

In this regards, ALETC intends to open one-more LNG Trainer Training Course for the faculty member of IAMU member Universities.

Please refer to the Course outlines below and registration form attached, and contact us if you are interesting in.

**Contacts:** Prof. Dr. Jin-soo PARK / Director, ALETC

**E-mail:** jspark@hhu.ac.kr.

**[Course Outline]**

**The 2nd LNG Trainer Training Course (LNG Deck & Engineering Course)**

**1) Date :** 6 weeks : July 1(Sunday) - August 14(Tue), 2007

**2) Course :** 1 week of Basic Training(In-House) + 1 week (Field trip) + 4 weeks (On-board Training) + 1 day Assessment

**3) Fees :** US\$ 8,500 (for 6 weeks), US\$ 12,000 (for 8 weeks)

\* The accommodation and foods during the In-House training(1 week) are extra. However, can arrange the room & foods on our Training ship with very reasonable costs.

**4) Requirements**

**[For Deck Course]**

It is desirable that the trainees should have the experience of LNG/LPG Gas Officer and knowledge of LNG/LPG Cargo Operation, or Teaching experience on LNG/LPG.

Otherwise recommend to take **8 weeks of Training** who has experience on Liquid cargo operation on Tankers.

**[For Engineering Course]**

It is also desirable that the trainees should have the experience/knowledge of Steam Turbine operation.

Otherwise recommend to take **8 weeks of Training** who does not meet above requirements.
